Diego Moreno Rodríguez-Barbero

Backend Developer in Globalcaja (Ext Deltanet SI)
Daimiel, Castilla-La Mancha, España

About me

Graduated in Web Application Development from IES Maestre de Calatrava.
Currently working as a Backend Developer at Globalcaja (2021-PRESENT). Previously worked at Deltanet (2020-2021). I am a proactive person who enjoys taking on new challenges. When it comes to public speaking, I have no problem. I consider myself an empathetic person, curious, with a phone smile, and a great enthusiasm for improving myself every day. As a former basketball player, I'm competitive and love working as a team to achieve goals. Learning something new every day makes me feel fulfilled. I have extensive knowledge in office software (Word, Excel, PowerPoint, Microsoft Office, zoom…), several programming languages, frameworks, CMS, and markup languages. I'm available to travel and to grow personally and professionally. Language: English B1 and French A1.

Professional Experience

Globalcaja
Backend Developer
April de 2021 - Present (2 años 2 meses)
Ciudad Real, Castilla-La Mancha, España
My functions are the provision of data extraction services through functional queries to extract the data, and then the front-end team can paint the requested data. Other functions I have had to perform include remote support, migrations, and report generation.
